# How to manage papers / evaluate and analyze researches.

MENDELEY & SciVal Workshop

It's a tool for managing academic resources and sharing online information.

MENDELEY

**Automatically extract bibliographic information from PDF**

Automatically create reference list

Organize. Collaborate. Discover.

SciVal

It's a research analysis tool which enables you to visualize research performance.

Visualize research performance of research institutions over the world

Analyze research trends

＊ We arranged an instructor sent from Elsevier.
＊ You are encouraged to create account and install Mendeley on your PC in advance.
＊ You can use your PC at the Workshop.
